A **lunar eclipse** occurs when the **Moon** passes behind the **Earth** so that the Earth blocks the **Sun's** rays from striking the Moon. This can occur only when the Sun, Earth, and Moon are aligned exactly, or very closely so, with the Earth in the middle. Hence, a lunar eclipse can only occur the night of a **full moon**. The type and length of an eclipse depend upon the Moon's location relative to its **orbital nodes**.

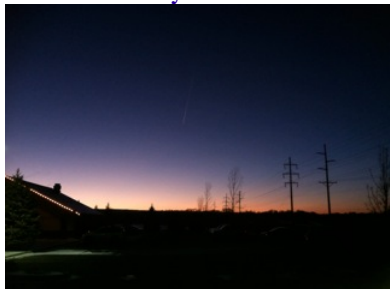

We start with Where In The Creek -

Congratulations to Rick Bukacek who knew that this is 6 putters leaned up against the wall in the Pro-Shop. Nice tries to Bob Wilson, Christy, Gail Fox.

Here's an easy one -

Gain FAME and FREE DRINKS, be the first to send in your answer...quickly and accurately as usual.

The Christmas Party was fun!! Thanks everyone for bringing canned food and all of the wonderful potluck items!

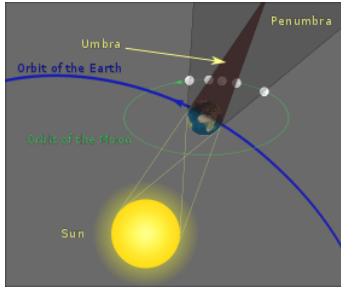

Unlike a [solar eclipse](#), which can only be viewed from a certain relatively small area of the world, a lunar eclipse may be viewed from anywhere on the night side of the Earth. A lunar eclipse lasts for a few hours, whereas a total solar eclipse lasts for only a few minutes at any given place, due to the smaller size of the moon's shadow.

Don't forget to get your ANGEL from THE ANGEL TREE in the lobby. We have given out lots but there are more to go!!

Here's a good site for information about the lunar eclipse tomorrow morning..... Keep looking up!!

The Cobble Creek Book Club will meet at the Club House Dec. 21st at 4:00 PM. December's book is Skipping Christmas by John Grisham. A funny movie, Christmas With The Kranks, follows the theme of this book if you can not find a copy to read.... it is very cute.
Happy Holidays to all who are elsewhere!

CHRISTMAS CAROLING!!

The plan is to pull a trailer with hay bales through the neighborhood singing carols with music and warm beverages.

We will meet at the clubhouse bar at 5:00 for a hot toddy and a snack and leave around 5:30. If you have your own golf cart (Decorated appropriately of course) and would like to ride around with us that would be great too.

We need a couple of things:

1. A volunteer with a truck that will pull the trailer who is willing to drive around for an hour and a half or so.
2. A battery powered music player that we can use for a few hours.
3. If you want to, make reservations with Ted for dinner afterward at 7:00-ish.

If you would like to volunteer please let me know soon, if you would like to participate please respond to the evite coming soon.

Click [HERE](#) and you will go to the Cobble Creek website where this will be posted in its entirety with all of the pictures and fun. So if your particular machinery does not display this fine piece of literature as it is written, you can always see it full scale over there at CobbleCreek.com. You can even read old updates in case you missed something or need some questionable humor in your day...

Thanks for the lunar knowledge Wikipedia!!
